Rational Behavioral Therapy is a self-help form of counseling which teaches people how to increase their skill in reasoning so they will be better able to deal with the problems and stresses of daily living. It can enable normal people to improve their lives and disturbed people to regain emotional and mental health.

Participants will receive individual training from Dr. Richardson and the University of Kentucky, College Medicine RBT Staff during the workshop.

INSTITUTE: HUMANISTIC LEADERSHIP

BA/ED/CR 686-01
BA/ED/CR 686-00
May 23 to May 27
Two Credit Hours
Three Credit Hours
8:30 A.M. to 4:30 P.M. (M-F)
Director: Dr. Daniel Geeding
CBA - Nyce Room

This course is designed to integrate the philosophy, theories, and techniques of three powerful Humanistic Systems - Transactional Analysis, Gestalt Therapy, and Neurolinguistic Programming - with the process of leadership. Leadership is one of the important functions of management, administration, education, and other areas involved in human resource development.

This integration is achieved through a balanced, didactic-experiential approach, with the focus on attaining behavioral as well as intellectual competencies. The behavioral competencies are identified for T.A., Gestalt, and N.L.P. and participants will be evaluated on their ability to demonstrate attainment of those goals.

After short theory - demonstration segments, participants will practice utilizing each component. The basic components will be combined into higher level systems that will become part of each participant's behavioral repertoire.

NOTE: Additional written assignments required for the third credit hour.

LIMIT: 50 Participants

This aerospace workshop is presented for elementary and secondary teachers and for pre-service teachers at these levels. The one-week workshop is designed to aid teachers in making the subject of space exploration, within and beyond earth's atmosphere, exciting and relevant to the classroom.

Emphasis will focus on development of appropriate classroom activities, construction of materials, awareness and acquisition of available audio-visuals and printed literature from government and industry. An excursion to Wright Patterson Air Force Base, Dayton, Ohio will enable participants to tour the Air Force Museum and the Base's physiological facilities utilized in aerospace science research.

Diversity in topics treated and in activities performed promise to make the workshop highly useful, informative, and fun. Participants will receive an "aerospace class activities" guide.

INSTITUTE: INTENSIVE PHONICS

ED 390-01
June 13 to June 17
Two Credit Hours
9:00 A.M. to 3:00 P.M.
Director: Sr. Monica Foltzer, O.S.U.
Alter 207

This institute offers teachers, principals, counselors, and speech therapists a course in the structure of language. It deals with all of the main sound-symbol relationships, both vowel and consonant. This intensive teaching of a simple and well-organized method of independent word analysis is of singular importance at the K-3 level and in remedial work.

Sister Monica uses her books for the institute. In Professor Phonics Gives Sound Advice, the student learns on the very first page three consonants and the short sound of a, how to slide these together into words, and to string the words into sentences. The child is reading from the word GO! The 42 sounds of the English language are taught in a step-by-step, logical procedure.

In A Sound Track to Reading, the author's second book, the 42 basic sounds are further streamlined. This advanced intensive phonics book is designed for remedial reading in the intermediate, junior and senior high classes. Techniques helpful with both books will be provided. Practical demonstrations with children are part of the institute.

INSTITUTE: AMERICA IN 1984: ORWELL'S WORLD OR OURS?

ED/HS 428-01
ED/HS 428-00
June 13 to June 17
Two Credit Hours
Three Credit Hours*
9:00 A.M. to 4:30 P.M.
Co-Directors: Drs. Roger Fortin and Richard Gruber
CBA 4

George Orwell's novel, 1984, aroused interest, alarm, and passionate discussion when it was published in 1949. Was it the illustration of one man's private nightmares, an indictment of communist totalitarianism, or a warning about tendencies found throughout modern civilization?

Through lectures, film, and a variety of guest speakers, this Institute will compare the world of 1984 as depicted in the novel with the conditions and trends that actually exist in our world today. Is "Big Brother" a bogeyman? Are "doublethink" and "newspeak" mere fiction? How is the individual faring, and what is happening to human relationships, in a world of grave perils, growing anxieties, expanding technologies, big government, and an all-pervasive mass media?

*May be taken for three credits with permission from either director.

Non-credit Registration Fee: \$50

Many advances have occurred within the area of child and adolescent psychopathology in the past few years. This workshop is designed for professionals and graduate students in psychiatry, psychology, counseling, education, social work, corrections, and other related fields who work with children and adolescents in a therapeutic capacity. While this workshop is developed to present the theoretical basis and recent research in the area of child and adolescent psychopathology, the primary focus will be on developing the practical clinical skills of the participants in working with various behavioral and emotional disorders. Cognitive-behavioral conceptualization of psychological disorders, assessment techniques, and treatment procedures will be explored in depth.

Video-tapes of therapy sessions, role playing, films, small group discussions, and lectures will be utilized to develop the understanding and clinical expertise of the participants. A variety of clinical procedures (self-instructional techniques, stress-inoculation, and pain control strategies) will be presented as methods in dealing with many of the psychological disorders (anger, depression, delinquency, phobias, hyperactivity, learning disabilities, etc.) experienced by children and adolescents.

COURSE: CURRICULUM DESIGN AND TEACHING STRATEGIES

ED 663-06 June 20 to July 15
Six Credit Hours Alter 224
8:30 A.M. to 12:15 P.M.
Co-Directors: Dr. Timothy Riordan and Diana Duncan Holmes

In order to explain the parameters in which the school curriculum is developed, appropriate teaching strategies are examined in light of the following context:
• The myth of education.
• The contemporary landscape and the psyche of mass society.
• The function of learning in an industrialized/post industrial economy.
• The written and spoken word and their paradoxical relationship to reading, writing, and speaking.
• The value of activity and the activity of valuing in an age that has "no time."
• Uses of the arts applied to subject areas in the curriculum.
Curriculum content and classroom activity will then be discussed in relation to the choices of "what is worth teaching and learning."

COURSE: FRONTIER DAYS IN THE MID-WEST

HS/PO/SO/ED 434-02 July 5 to July 16
Three Credit Hours Alter 314
10:45 A.M. to 5:30 P.M.
Director: Dr. Paul Simon

Ninety years ago Professor Frederick Jackson Turner created his now famous "Frontier Thesis" as a way of interpreting United States History. He saw successive waves of frontiersmen moving west from the Atlantic Seaboard through the Appalachians to the Ohio Valley and beyond. On their trek they used horses, mules, Conestoga wagons, flatboats, steamboats and occasionally foot power to get West. Once they arrived, they had to carve out a life for themselves.

The course this summer will focus on frontier life in the Upper Mid-West, especially the Ohio Valley from the late 1700's to the early 1840's. It will talk about how the people lived; what they ate and wore, how they worshipped and played, what family life was like.

The course is designed to appeal to educators and historians who will be teaching courses in this area as well as regular students who have an interest in this topic and want to expand their knowledge. A number of field trips are planned to illustrate these points. There will be short trips to the Indian Museum near Picqua, Ohio and to a working pioneer farm north of Indianapolis. There will also be a two-day trip to Chillicothe to see Adena and to attend a presentation of the Outdoor Drama, "Tecumseh".

The course will be built around two books: THE FRONTIER THESIS by Frederick Jackson Turner and THE FRONTIERSMAN by Allen Eckart.

Students will need approximately \$30.00 per person to cover such costs as transportation, motel, food and admissions. LIMIT: 35 Participants

INSTITUTE: MANAGEMENT SKILLS UPDATE FOR EDUCATIONAL ADMINISTRATORS II

ED 664-02 July 18 to July 22
Two Credit Hours CBA 5
8:00 A.M. to 4:30 P.M.
Director: Dr. James Boothe

This workshop is intended for administrators-in-service and the presentations and activities will assume this level of experience of the participants.

Topics will be as current as possible in the areas of: the dynamic legal situation, the latest findings in management of time, conflict and stress, creative problem solving, staff evaluation, and strategies for change.

NOTE: Open to students who have completed ED 664-02 (1982). No prerequisite required.

PRACTICUM: INTENSIVE COUNSELING

ED 732-02 July 18 to July 22
Two Credit Hours Joseph 206
9:30 A.M. to 4:30 P.M.
Director: Dr. Lon S. Kriner

The Intensive Counseling Practicum is designed to improve and enhance individual and group counseling skills for practitioners and advanced graduate students.

The practicum will provide advanced training in techniques, theories, and issues related to counseling profession.

Micro-counseling techniques, utilizing extensive audio and video-tape exercises, will be the basis for the experimental format of the course.

LIMIT: 20 Participants Materials Fee: \$10.00

GESTALT THERAPY WORKSHOP: THEORETICAL FOUNDATIONS AND THERAPEUTIC TECHNIQUES

PS 615-02 August 3 to August 5
One Credit Hour Joseph 206
9:00 A.M. to 4:00 P.M. (W Th) 9:00 A.M. to 12:00 P.M. (F)
Director: Dr. W. Michael Nelson

While Gestalt therapy is over three decades old, there was a sharp increase in interest and use of Gestalt methods in psychotherapy in the 1970's until it is now well established both as a major affiliation of psychotherapists and as a style of personal growth. This workshop is designed for professionals and graduate students in psychiatry, psychology, counseling, social work, corrections and other related fields who work with adolescents and adults in a therapeutic capacity. While the workshop is developed to present the continually developing body of knowledge and philosophy of Gestalt therapy, the primary focus will be on developing the practical clinical skills of the participants in working with various clients. Since the focus of Gestalt therapy is primarily experimental in nature, didactic material will be emphasized and supplemented by demonstrations and discussion. Another aim of the workshop will be to provide each participant with a group experience in Gestalt therapy coupled with an explanation of how such experiences are generated and can be used for personal growth. Particular emphasis will be on awareness exercises and dreamwork.
